Our sustainability pledge

As a builder of solid wood furniture, we rely on good old Mother Nature for everything we create. That makes it our duty to pay special attention to making environmentally-responsible decisions.

Whether that is choosing low VOC and non-toxic stains and finishes, building with renewable or reclaimed materials, or operating as close to zero-waste as possible, we have made a commitment to work with the future in mind.

About Fireside Lodge Furniture Company

In 1998, Fireside Lodge began as a builder of handcrafted cedar log furniture that supplied a regional market. Over the next several years, our reach and variety of product offerings increased to include everything from hickory log to reclaimed barnwood, and incorporating styles ranging from our "rustic" roots to transitional, industrial, modern, and beyond.

Today, more than 20 years later, our products are found in campgrounds, hotels, resorts, lodges, restaurants, and homes across North America and as far away as New Zealand.

Our Product Lines

As the largest manufacturer of handcrafted rustic furniture in the country, Fireside Lodge designs and builds furniture that spans the rustic and transitional spectrums.

From cedar and hickory log to reclaimed barnwood, our nearly 5000 standard offerings are complemented by our sister company, Wooded River, that offers hand-sewn softgoods and top-of-bed products.

Only a select number of our products are highlighted in this catalog, all of which are geared toward the campground and hospitality industries.

The Voyageur Collection

Our Voyageur line of furniture has been designed specifically with campgrounds, RV parks, and cabin rentals in mind.

From outdoor furniture, to futons and bunks, to dining tables – all our furniture is handcrafted from northern white cedar and many of the items are available unfinished to allow you to customize your look.

The perfect blend of economy and quality, you can easily update all your indoor and outdoor furnishings with the Voyageur Collection while maintaining your bottom line.

The Cedar Log Collection

Fireside Lodge started with hand-peeled cedar log furniture, and as such, it is the most complete line we offer. No one in the industry can boast a more diverse line of solid, natural log furniture.

A number of our Cedar Log product offerings are included in this catalog to help round out your possible needs in obtaining that "rustic look."

Can't find what you are looking for in these pages? Chances are we offer it as a standard product and your Project Manager can supply you with a print or digital catalog – and if it isn't standard, we can custom build it for you!

The WoodShop Collection

New in 2020, the WoodShop Collection makes custom furniture a breeze! Made from responsibly-sourced pine, every piece is customizable and allows you to mix and match stains, textures, and hardware.

Available in a number of items designed specifically for campgrounds (The Cider House and Mission Point beds, bunk beds, and futons), WoodShop gives our campground customers the ability to expand their decor beyond log while still keeping the rustic feel your guests desire and expect.

WoodShop Stains & Textures

Wooded River, Inc.

Located outside of Boise, Idaho, Wooded River, Inc. has built a strong name for itself within the hospitality and design community. Acquire by Fireside Lodge in 2011, it has been an excellent addition that helps ensure we are a one-stop shop for our clients.

In addition to a catalog of thousands of items and hundreds of standard fabric and leather options, Wooded River also provides custom design and sewing services to our customers which has made them a valuable partner on hundreds of hospitality projects.

A close-up photograph of a wooden workbench. In the foreground, there are several long, thin, light-colored wood shavings. A dark, worn metal chisel lies horizontally across the lower part of the frame. In the background, a wooden mallet with a dark handle stands vertically. To the right, a small, light-colored wooden bowl is partially visible. The overall scene is rustic and emphasizes craftsmanship.

Custom Furniture Design

Looking for something specific you can't find?

In addition to thousands of standard product offerings, we provide our clients with custom furniture design and building services.

It's easy, it's cost effective, and it will supply the exact piece of furniture you are looking for.

Available in all possible top/bottom combinations, it stands 72-inches high. It ships finished and partially assembled with all necessary hardware included. To maximize head space, a low-profile box spring is recommended on the lower bunk or slat rolls are also available at an additional charge.

Handcrafted American Made

In a day and age where so much is made to be thrown away, Fireside Lodge takes a stance to go the opposite direction.

Pride in craftsmanship is ingrained into every piece of Fireside Lodge's furniture starting with hand-peeled logs all the way to the last touch-up of stain or fastening of hardware.

Our Minnesota craftspeople build each piece of furniture uniquely for you resulting in a commercial-quality end product that is sure to endure and delight.
