FIRESIDE LODGE

FURNITURE COMPANY

About Fireside Lodge Furniture Company

In 1998, Fireside Lodge Furniture began as a builder of handcrafted cedar log furniture that supplied a regional market. Over the next several years, our reach and variety of product offerings increased to include everything from hickory log to reclaimed barnwood, and incorporating styles ranging from our "rustic" roots to transitional, industrial, modern, and beyond under our wholesale brands and sister companies.

Today, more than 20 years later, our products are found in furniture stores, campgrounds, hotels, resorts, lodges, restaurants, and homes across North America and as far away as New Zealand.

Table tops explained

Across our product lines, we have dozens of base styles for our dining tables and only a few are represented in this catalog. However, there are five different basic types of table tops we offer and here is a little primer to help you tell the difference.

A Barnwood Artisan (Barnwood table option)

Features authentic reclaimed oak barnwood planks and with a drop down trim surrounding the joined planking.

B Antique Oak (Barnwood table option)

Made from joined 6/4 oak and stained to match authentic barnwood. The top is surrounded with a routed edge.

C Breadboard (WoodShop tables)

Built to minimize the effects of humidity and temperature changes on the joined, solid wood planks.

D Cedar Live Edge Trimmed (Cedar tables)

Surrounded by a live edge log trim. This rustic feature creates a "slab" look that matches the hand-peeled logs of the table bases.

E Hickory Bark Trimmed (Hickory tables)

The bark-on, live edge trim mirrors the texture of the logs found on the table legs and accents on every base creating a cohesive look.

Dining Chair Types Explained

Though we have dozens of styles of dining chairs, all styles are available in two basic configurations: Side and Arm. Some of our styles are available as Bistro chairs, which means they are smaller for use in tighter spaces like small kitchens.

Furthermore, almost all of our dining side and arm chairs are available either with a wood seat or upholstered.

Manufacturer's Limited Warranty

We believe strongly in the quality and integrity of our workmanship and products. We want you to be truly pleased with your Fireside Lodge furniture as it becomes an important part of your family heirlooms for generations to come. Should the furniture fail structurally at any time during the lifetime of the original owner due to workmanship or material, Fireside Lodge will repair or replace it at our discretion. If Fireside Lodge determines that the issue in question is covered by warranty, and that repair is impractical, you will be furnished with a replacement product of the same or similar design, quality, and style.

The Fireside Lodge warranty period begins at the time that you receive the product in your home. To exercise your rights under this warranty, you must submit the original sales receipt when making the claim. You must be the original owner. If you notice a manufacturing defect, it is important for you to promptly notify Fireside Lodge Authorized Dealer from who you purchased your furniture. If it is impossible or impractical to notify that dealer, please submit your claim directly via email or in writing to:

Wood Finishes on our furniture

Fireside Lodge Furniture offers three different finish options. Though most of our furniture uses our standard finish, some items will come standard with a harder Armor or Liquid Glass finish. Still yet other pieces that are used in high-wear areas (like dining room tables, coffee tables, and others) have the option of upgrading to the Armor or Liquid Glass finishes.

If a piece of furniture uses one of the optional finishes as standard, it will be called out in the product's specifications.

Standard Finish

Fireside Lodge uses a clear coat, catalyzed lacquer with a satin finish. The finish draws out the natural colors in the wood and will seal and protect your furniture.

Treat the surface with any level of care that you would with any fine furniture.

Armor Finish

Providing a medium satin sheen, this premium quality, post-catalyzed, alkyd-amino varnish is formulated to offer superior durability, and UV protection. It helps prevent scratching and denting, but does not all together eliminate the possibility, especially on soft wood products like found on the WoodShop and Cedar Log Collections.

This finish offers additional protection on high-use surfaces like dining table tops.

Though the Armor finish holds up to frequent cleaning, avoid using cleaners that contain ammonia or bleach.

Liquid Glass Finish

With a high gloss sheen, this upgrade finish is made from a two-part epoxy. Equivalent to 50 coats of polyurethane, the finish is tough, yet flexible and not prone to shattering from impact.

With outstanding moisture resistance, Liquid Glass is an ideal coating for bathroom vanities, bar tops, coffee tables, desk tops, and dining tables.

Pledge furniture polish will prolong the life of the surface and clean smudges. Impressions will often disappear over time (depending on room temperature), but light surface scratches may appear with use.
